2 0.77 Sqft Per Box-8 Plank Per Box | Plank size :- 48"x8"

Product Info

Water Proof: The primary advantage of waterproof laminate flooring is its resistance to water damage. It is designed to withstand moisture and spills without warping or swelling. This makes it suitable for areas prone to moisture. Water Proof tested for up to 72 hours. Black HDF Core used as base core material which is highly resistant to moisture then regular MDF board and makes the Flooring more Water Proof.

Durability: Waterproof laminate flooring is highly durable and can withstand heavy foot traffic, making it suitable for both residential and commercial applications. It is typically more resistant to scratches, stains, and wear compared to regular laminate flooring. Can be used for Commercial and residential purpose. With light to medium traffic

Easy maintenance: Waterproof laminate flooring is relatively easy to clean and maintain. Spills and stains can be wiped off with a damp cloth or mild cleaning solution. Regular sweeping or vacuuming helps keep the floor free from dirt and debris.

Versatile design options: Just like traditional laminate flooring, waterproof laminate comes in a wide range of colors which enhances the look of your floor. Cost-effective: Waterproof laminate flooring is typically more affordable than other waterproof flooring options like ceramic tiles. It offers a cost-effective alternative for homeowners or businesses looking for water-proof flooring without breaking the bank.

Precautions: However, it's important to note that while waterproof laminate flooring is highly resistant to water, it is not completely impervious. Excessive exposure to water or prolonged submersion can still cause damage. It's crucial to follow proper installation and maintenance guidelines to maximize the life span of your waterproof laminate flooring.

Water Proof Laminate Flooring Construction

• **Ac4 Wear Layer**

Coated in thin lacquer of aluminum oxide which provides a Scratch - resistant and Water Proof surface.

• **HD Decor Pattern Layer**

Advanced printing and embossing technology enables a real timber feel & finish.

• **High - Density Water - Proof Ultra-Core**

Up to 1000 kg/m³ Super Ultra core, only < 5% thickness swelling after 24 hours in water!

• **Watertight Click Lock System**

The paraffin covering the entire profile protects your floor against humidity.

• **Durable Balance Layer**

Black backing layer that serves to protect the core board and acts as light insulation.

**Although this product is waterproof but it is not an exterior grade product also not to be used in areas which are in constant contact with water or moisture eg. bathroom or exterior deck area.
